Andy,

Take a look at the attached draft Appendix 1: Report Development Process. In particular, Fig. A1.4 breaks things down by quarter, at least. We've also had a timeline posted on our website:

(note, however, that this is fairly obsolete now given the changes to the clearance process earlier this year)

As far as FRNs go, the following were issued:

Let me know if this doesn't quite answer the ask and I can try digging up some other things.

I'm trying to find a copy of the timeline that was established for the development of NCA4 before we started the process. In particular, I'm interested in something that shows the anticipated schedule, including FR notices. I have the information from the NCA4 clearance briefing and product summary, which is a good start. It shows the engagement actions, including the call for authors, but it doesn't have dates. The anticipated schedule would better show opportunities for external engagement and our efforts to encourage that interaction.

Is this something you could find fairly quickly?
